

# Global health: developing leaders

## Free seminars to develop global health advocates

### **Patient safety in low and middle-income countries: Ethics and the junior doctor's responsibilities**

This seminar will explore the ethical issues and challenging scenarios that doctors may encounter whilst working in low resource settings. This could include situations where a doctor feels pressurised to perform tasks in which they have been inadequately trained. How should doctors manage situations of conflict and repression to ensure all patients are given the best possible care? What should doctors expect when embarking on projects overseas? What training should they receive?

#### Speakers:

Dr Gareth Walker, Doctors of the World UK

Dr Julian Sheather, British Medical Association

Prof John Porter, London School of Hygiene and Tropical Medicine

Mr Michael Stark, DfE/DFID/DH/Cabinet Office

Dr Gareth Lewis, Royal College of Paediatrics and Child Health

**Thursday 25 September 2014**

**18:30 – 20:00**

**Followed by a drinks reception**
